Muhannad Aldawsari

Software Engineer

m.aldawsari221@gmail.com • +966508661214 • Riyadh, Saudi Arabia • LinkedIn • GitHub • Portfolio

PROFESSIONAL SUMMARY

Software Engineering graduate from King Saud University with hands-on experience developing full-stack web and mobile applications, RESTful APIs, database-driven solutions, and third-party API integrations. Proficient in Java, Python, React, SQL, Laravel, and Flutter, with experience in Supabase, MySQL, Git, and Agile development. Strong foundation in software design, SDLC, requirements engineering, and building reliable digital solutions with a focus on usability, integration, and maintainability.

EXPERIENCE

Frontend and UI/UX intern

MAZNEXA | Saudi Arabia, Riyadh • Jun 2026 - Aug 2026

- Optimized the corporate website's user interface by resolving cross-browser compatibility issues and fixing layout breaks to achieve 100% responsive web design.
- Prototyped low-fidelity and high-fidelity wireframes and scalable UI designs in Figma, streamlining the development process for front-end implementation.

PROJECTS

Buffer - AI-Powered Career & CV Builder

Developed a full-stack career platform that enables users to create professional CVs by connecting accounts such as GitHub and LinkedIn. Implemented a personalized skills tree and recommendation features that match users with relevant job and training opportunities, events, and hackathons based on their skills and professional interests.

Technologies: React.js, Python, Supabase, REST APIs, GitHub API, React, Git

Murshid Platform - Career Guidance Web Application

Built an AI-driven platform that helps high school students choose suitable majors and universities through intelligent questionnaires. supported university exploration across Saudi universities, community discussions, private messaging. Focused on system reliability, structured development, and iterative improvement using Agile methodology.

Technologies: React.js, Supabase, AI APIs, Trello, GitHub

Sabbih Mobile App

Developed mobile app for reading Azkar with reminder notifications and user-friendly interface to support daily spiritual practices.

Technologies: Flutter
